Re: Plastic Breaker Boards

F.A.O. All Registered Instructors,

An incident has occurred resulting in an accident using plastic kick boards, the Council is going to convene a meeting to investigate and re-evaluate safe working practises to make sure that the existing methods are adequate.

Until such time as the above has been carried out can I ask you all to re-examine your own method statements for the use of plastic boards.

Yours in Taekwon-Do

Acting Chairman
Master Michael Prewett
